

We purchased the business from Christi's parents in 1998 and continued with the original ethnic recipes. In time we created recipes of our own, adding a few unique and delicious perogies to our menu. We have been pleased to supply our product to retail stores and the food service industry regionally. We have especially enjoyed serving the public directly from our shop.

Many have expressed appreciation for a

meal that is quick and easy to prepare for a family and yet tasted just like home - cooking. We began searching for additional meal solutions and slowly but surely we have been bringing products together that meet our "tests". Is it easy to prepare? Is it convenient to have on hand in the freezer? Is it family friendly? And most importantly, does it taste great?

We will continue to add and change products as your ideas and ours combine to make our little shop a unique Manitoba taste experience.

From our family to yours,
Marshall & Christiane Toews

Fund Raising
