Trust the experts to get the soil that's right for you!

Garden Soil

Screened Topsoil

Lawn Soil

Frequently Asked QUESTIONS

Designed to better inform our customers

When should Lawn Soil (3 Way Mix) be used?

Lawn Soil is a 3-Way mix consisting of screened topsoil, peat moss and a bit of sand. This soil is heavier than the garden soil and is a good economical blend that is used for purposes such as seeding a new lawn or top dressing an existing lawn.

When should Garden Soil (4-way mix) be used?

Garden Mix is a 4-Way mix consisting of screened topsoil, peat moss, a bit of sand and manure. Recommended for raised beds, vegetable gardens or anywhere a premium soil is desired.

What is screened black topsoil?

Screened topsoil is black topsoil which has had trash, rocks and clumps over 1" removed. It's a great multipurpose soil used for filling in low spots and underneath sod.

How much material do I need?

Formula: Width x Length x Depth = Divided by 27 = Number of Yards.

How much can you deliver at one time?

Soil is lighter than gravel which enables us to deliver more quantity per load. We also specialize in oversize boxes which allows us to deliver up to 20 yds on a tandem truck and 35 yds on a trailer.

How much delivery notice do I need to give?

Often same day delivery, depending on the time of your call.

Can I pick up the material myself?

Yes. Please call to confirm before arriving.
